Singapore, 28 August 2025 – GLP Pte Ltd (“GLP” and with its subsidiaries the “Group”), a leading global thematic business builder, investor and investment manager, today announced that a wholly owned subsidiary of the Abu Dhabi Investment Authority (“ADIA”) will invest up to US\$1.5 billion in GLP to support its next phase of growth.

Building upon several years of successful fund-level collaboration between GLP and ADIA subsidiaries, this transaction is an endorsement of GLP's execution capabilities and track record of delivering value in high-growth sectors. GLP continues to benefit from the support of its existing consortium of long-term shareholders, positioning the company for its next phase of growth.

GLP's strong financial position will be enhanced by ADIA's initial capital deployment of US\$500 million, which is expected to accelerate the Group's mission of creating differentiated, scaled platforms across logistics, digital infrastructure and renewable energy – sectors benefitting from structural tailwinds driven by the expansion of e-commerce, accelerating adoption of AI/cloud technologies, and the global shift towards cleaner, more sustainable energy sources.

“We are delighted to strengthen our relationship with ADIA in line with our strategy of creating scalable partnerships with world-class investment partners. With this enhanced capital base and strategic alignment, this investment further positions us to accelerate growth and take advantage of the significant market opportunities we see associated with the secular expansion of new economy sectors in which we operate,” said Ming Mei, Co-Founder and CEO of GLP.

Mohamed Al Qubaisi, Executive Director of the Real Estate Department at ADIA, said: “We have successfully invested in GLP funds for a number of years. This transaction will allow us to deepen that relationship, support the company in its next phase of growth and scale our exposure to new economy sectors, in line with our strategy.”
